Sir:

INFORMATION DISCLOSURE STATEMENT
35 U.S.C. 6; 37 C.F.R. 1.97; 1.98

Submitted herewith are citations of prior art domestic patents and published patent applications, and copies of foreign patents and/or publications identified and discussed in the specification of the above identified application under the heading: "DESCRIPTION OF THE PRIOR ART." These are identified on the attached PTO-1449 form.

The discussion of these prior art patents and/or publications in the attached specification is believed to satisfy the duty to disclose requirements as set forth in the above identified statute and rules.

Respectfully submitted,

Stephen Christopher Swift

Disclosure of JAMES CHYVAN MOORE
Your Name(s)
Entitled: SECOND CHANCE BLACKJACK
Title of Disclosure

Sir:

Attached are two copies of a disclosure of my above-entitled invention (consisting of 2 sheets of written description and 1 separate drawings or photos), a \$ 10.00 check, a stamped, addressed return envelope, and duplicates.

The undersigned respectfully requests that this disclosure be accepted and retained for two years (or longer if it is later referred to in a paper filed in a patent application) under the Disclosure Document Program and that the enclosed duplicate of this letter be date stamped, numbered and returned in the envelope also enclosed.

The undersigned understands that (1) this disclosure document is neither a patent application nor a substitute for one, (2) its receipt date will not become the effective filing date of a later-filed patent application, (3) it will be retained for two years and then destroyed unless it is referred to in a patent application, (4) this two-year retention period is not a "grace period" during which a patent application can be filed without loss of benefits, (5) in addition to this document, proof of diligence in building and testing the invention, and/or filing a patent application on the invention, may be vital in case of an interference, and in other situations, (6) if such building and testing is done, signed, and dated, records of such should additionally be made and these should be witnessed and dated by disinterested individuals (not the PTO), and (7) If any public use or sale of the invention is made in the U.S., or any publication is made anywhere, no valid patent can be granted on the invention unless a patent application is filed on it within one year of any such public use, sale or publication, regardless of the filing date of this Disclosure Document.

Very respectfully,

James Chyvan Moore

Enclosures:
As stated above

SECOND CHANCE BLACKJACK

Second Chance Blackjack is a variation of regular blackjack games currently in play at most casinos. It gives the player an option to pay a preset fee at the start of each deal. This fee would be a standard percentage of each player's bet, probably in the 15% to 25% range.

The exact percent would be established by the house. The fee should be modest enough to give players a reasonable chance to win with a small amount of extra luck.

Payment of this fee is entirely optional and entitles players to discard one of their two starting cards, if desired. Each player would make their decision when it is their turn to act on their hand. When dealer has a Blackjack, all fees are refunded. When a player discards, the next card off the deck would be their replacement card. The new two-card hand would be their official starting hand, Blackjacks and all other hands included. Player would then complete the play of the hand as they normally would.

By keeping the house advantage reasonable, every round of play could present players with a game where the excitement and anticipation goes on and on!

When used properly, the optional discard greatly enhances the player's chance to win the hand. Some discards are more effective than others, but all proper plays will increase the player's overall chances to win more often.

PROPER USE OF THE DISCARD OPTION.

1. Never discard from any two-card starting hand of Blackjack, 20, 19, 11, 10, 9, 8 or soft 12 (Ace - Ace)
2. Always discard from two-card totals of soft 18, 17, 16, 15, 14 and 13. (Keep the lone ace).
3. Always discard from two-card totals of hard 17, 16, 15, 14, 13, 12, 7, 6, 5, and 4.

Exception for 8-8:

Split vs. dealers 7, 6, 5, and 4.

Discard vs. all other up cards.

4. Hard 18: Always stand vs. dealers 7.
With (10-8) discard the 8.
With (9-9) Split v s. 8-2-3-4-5 and 6.
Discard vs. 9-10 and Ace

After discarding, the players would complete playing the hand as they normally would.

The discard option not only increases the chances to win the hand, it elevates the players' attention and excitement as each hand unfolds. The game promotes greater participation by the player through more action along with less stressful decisions to make.

Every time a player receives an ace, they have two chances to make a Blackjack. If the first chance is a miss, the discard option gives them a second chance with almost one chance in three to hit. No stressful decision here. A 19 or 20 is also quite possible.

Hard 17 through hard 12 are the six biggest losers in Blackjack. The optional discard can transform these hands into a single ten two times out of three. There is no better single card to start with, except the ace. A discard on these hands will always improve a player's chance to win, including an outside chance for Blackjacks!

A discard can turn the negative starts of 7, 6, 5, and 4 into a more manageable 2 or 3. This produces a slightly better chance to win.

With the optional discard available players will never again have to stand on the lackluster hard 18.

Instead of just waiting for the dealers to beat them and hoping they won't, the player can improvise. Over 90 % of the time the player can discard an 8 and keep the lone 10. This turns a net loser into a strong net winner.

The other 8 or 9% of the time they can play 9-9 vs. 7 and split vs. 8, 2, 3, 4, 5 and 6. All positive plays! Against 9, 10 or ace, they can discard and play the lone 9. Overall, this play is a loser but loses considerably less than standing or splitting.

A pair of eights is somewhat similar to a pair of nines. Play the net winners! Split vs. 7, 6, 5, and 4 which are net winners. Discard and play the lone 8 vs. all other up cards to reduce the loss on the net losers. Basically, that discard lessens the stress of the most dreaded plays in Blackjack: Splitting eights vs. 9-10 and ace.

More ongoing action to keep players more attentive. More exhilaration turning bad starts into happy conclusions more often. Twice as many Blackjacks and fewer busted hands, plus greatly reduced stress for the players. All provided by a game that never becomes dull. That's Second Chance Blackjack!
